EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to assist Shareholders with their consideration of the Resolutions proposed for the General Meeting of Gindalbie Metals Ltd (**Gindalbie** or **Company**) to be held at the Swan Room, Parmelia Hilton Hotel, 14 Mill Street, Perth, Western Australia at 10.00 am (Perth time) on Monday, 28 June 2010.

This Explanatory Statement should be read in conjunction with the accompanying Notice of General Meeting.

Terms used in the Notice of General Meeting and this Explanatory Statement, unless the context otherwise requires, have the meaning given to them in the Glossary contained in this Explanatory Statement.

1. BACKGROUND TO RESOLUTIONS

1.1 Karara Iron Ore Project

Gindalbie and Anshan Iron and Steel Group Corporation (**AnSteel**) are jointly developing the Karara Iron Ore Project (the **Karara Project**), through Karara Mining Limited (**Karara**), a 50:50 incorporated joint venture between the Company and Angang Group Investment (Australia) Pty Ltd (**Angang**), a wholly owned subsidiary of AnSteel. The Karara Project is located 225 kilometres east of Geraldton in Western Australia's Mid West region.

In November 2009, on-site construction started on the Karara Project following the receipt of the final environmental approvals from the State and Commonwealth governments. The Karara Project is expected to commence production in 2011, and will initially produce up to 11 Mtpa of iron products, comprising Direct Shipping Ore (DSO) at a rate of up to 3 Mtpa from mid-2011 and 8 Mtpa of high-grade magnetite concentrate (**concentrate**), from the second half of 2011.

In September 2007, a Bankable Feasibility Study (**BFS**) into the development of the Karara Project was completed, which estimated a Project Construction Cost of \$1.648 billion for the initial construction phase of the Karara Project (excluding the joint venture pellet plant in China). On 5 May 2010, the Company announced an updated Project Construction Cost estimate of \$1.975 billion for this initial construction phase of the Karara Project.

On 6 September 2007, the Company, Karara, AnSteel and Angang entered into a joint venture development agreement (**Karara Joint Development Agreement**) pursuant to which they agreed to participate in an incorporated joint venture, with Karara as the joint venture company, to implement and develop the Karara Project. Angang and the Company each hold a 50% shareholding in Karara.

1.2 Karara Project Funding

As part of the Karara Joint Development Agreement, Angang and Gindalbie committed to contributing a combined total of \$534 million in equity for the development of the Karara Project. The payment of these equity contributions was completed in July 2009.

On 9 April 2010, Gindalbie announced that Gindalbie, Karara, AnSteel and Angang had signed a term sheet and mandate letter for the US\$1.2 billion Karara Project loan facility (**Facility**) to be provided by China Development Bank, Bank of China and other syndicate lenders (**Lenders**) for the development of the Karara Project. Following negotiations with the Lenders, Gindalbie and Angang have agreed to contribute a further \$23 million each to Karara prior to drawdown on the Facility, which would bring the total equity contributed to Karara to \$580 million.

1.3 Facility Resolution

As announced on 5 May 2010, Gindalbie has entered into the following agreements:

- (a) an agreement with Angang to provide a cross charge over the shares each entity owns in Karara, as required under the terms of the Karara Joint Development Agreement as security for performance of the duties and obligations arising under or by virtue of the Karara Joint Development Agreement or the Project Agreements (as defined in the Karara Joint Development Agreement) (**Cross Charge**); and
- (b) an agreement to provide a share mortgage in favour of AnSteel over all of Gindalbie's shares in Karara, as part of the security arrangements for the Facility (**Share Mortgage**).

Gindalbie is seeking Shareholder approval for the Cross Charge and Share Mortgage pursuant to the resolution contained in Gindalbie's Notice of Meeting dated 5 May 2010 (the **Facility Resolution**). A general meeting to consider the Facility Resolution is scheduled to be held on 16 June 2010.

1.4 Updated Karara Construction Cost Estimate

The BFS completed in September 2007 envisaged a production rate of 8 Mtpa of concentrate which would provide the Karara Project with a 20 year mine life. However, subsequent drilling has expanded the resource of the Karara Project, giving it the potential to produce more than 30 Mtpa of ore over a mine life of approximately 30 years. In 2008 Gindalbie and Angang agreed to alter the development strategy for the Karara Project and authorised the design and construction of supporting infrastructure that would support production levels of 14 to 36 Mtpa, while maintaining an initial project output of 8 Mtpa.

The decision to increase the capacity of key parts of infrastructure and plant components during the initial construction stage (**Stage 1**) was aimed at enabling the Karara Project to attain substantial cost savings over the long term as it increases production from the initial rate of 8 Mtpa of concentrate to its long-term potential of more than 30 Mtpa.

As mentioned above, on 5 May 2010, Gindalbie announced an updated Project Construction Cost estimate for the Stage 1 development of the Karara Project of \$1.975 billion, which covers the Stage 1 production level of 8 Mtpa of concentrate and up to 3 Mtpa of hematite, as well as effective pre-payments on subsequent expansion phases by encompassing additional infrastructure capacity to support production levels of 14 to 36 Mtpa.

The revised Project Construction Cost estimate of \$1.975 billion represents an increase of approximately 20% or \$327 million to the \$1.648 billion Project Construction Cost estimate in the BFS (excluding the joint venture pellet plant in China), which was completed approximately 2.5 years ago. A significant portion of the Project Construction Cost increase relates to design scope and capacity changes for upgraded infrastructure to support subsequent expansion of capacity and general engineering design improvements.

The additional up-front expenditure will allow much of the supporting infrastructure for increased future production to be in place, while also allowing staged increases in concentrate output to be achieved without the need for a significant shut down. Karara's project development team also conducted a complete review of the Karara Project scope and refined several areas of design, which will result in a more robust processing plant, suitable for expansion and with improved production efficiencies.

1.5 Equity Raising

The revised Project Construction Cost estimate identified a need for an additional \$122 million of funding, which Gindalbie and Angang have agreed to meet jointly by contributing further equity to Karara of approximately \$61 million each.

In addition, Gindalbie and Angang have agreed to contribute up to \$107.5 million each toward the pre-commissioning and working capital costs for the Karara Project, which total approximately \$430 million. Of that \$430 million, approximately \$184 million will be required for pre-commissioning items such as insurance inventory, spares and pre-strip mining and approximately \$246 million will be required for finance facilities such as performance bonds, interest costs and working capital. Preliminary discussions have commenced with the Lenders regarding an additional funding facility to cover the balance of the \$430 million of funding required after the equity contributions by Gindalbie and Angang.

To fund Gindalbie's share of the revised Project Construction Cost estimate, being approximately \$61 million, and pre-commissioning and working capital requirements for the Karara Project, being approximately \$107.5 million, the Company announced on 13 May 2010 its intention to undertake a capital raising to raise between \$175 million and \$206.4 million, which will comprise:

- (a) a placement to selected eligible sophisticated and professional investors of 120,215,054 Shares at an offer price of \$0.93 per Share to raise \$111.8 million (**Institutional Placement**);
- (b) a placement to Angang Group Hong Kong (Holdings) Limited (**Angang HK**) or its nominee of up to 80,215,000 Shares at an issue price of \$0.93 per Share, to raise between \$63.2 million and \$74.6 million (**Angang Placement**); and

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES OR TO U.S. PERSONS

- (c) a share purchase plan to eligible Shareholders with an address on the share register in Australia or New Zealand to subscribe for up to \$10,000 worth of Shares at an offer price of \$0.93 per Share, to raise up to \$20 million (**Share Purchase Plan**),

(together, the **Equity Raising**).

The Equity Raising is being undertaken by the Company to primarily provide it with funding for its share of the revised Project Construction Cost estimate, being approximately \$61 million, and pre-commissioning and working capital requirements for the Karara Project, being approximately \$107.5 million. Approximately \$6.5 million will be used to cover fees, legal expenses and other costs associated with the Equity Raising. Any surplus funds will be used by Gindalbie to strengthen Gindalbie's cash resources to underpin future growth opportunities for Karara.

The independent Directors believe the structure of the Equity Raising is the most efficient form of fundraising for Gindalbie, places Gindalbie in a sound financial position and enables Gindalbie to meet its agreed equity contributions to Karara. Consequently, the independent Directors unanimously believe the Equity Raising proposed is in the best interests of Shareholders, both now and for the long term.

Resolution 1 is seeking Shareholder approval of the Angang Placement for the purposes of Listing Rule 10.11. Angang HK is a wholly owned subsidiary of AnSteel and currently holds a 36.12% shareholding in the Company. Depending on the amount raised in the Share Purchase Plan, the number of Shares to be issued under the Angang Placement will be adjusted so that Angang HK maintains, either directly or indirectly, its 36.12% shareholding in Gindalbie. The total consideration payable by Angang HK under the Angang Placement will therefore be between \$63.2 million and \$74.6 million. Further information in relation to Resolution 1 and the Angang Placement is set out in section 2 of this Explanatory Statement.

Resolution 2 is seeking Shareholder approval of the Institutional Placement for the purposes of Listing Rule 7.1. Further information in relation to Resolution 2 and the Institutional Placement is set out in section 3 of this Explanatory Statement.

The Share Purchase Plan is conditional on approval of Resolutions 1 and 2, the waiver of Listing Rule 10.13.3 referred to in section 2.2 of this Explanatory Statement being granted, completion of the Institutional Placement and Shareholders approving the Facility Resolution contained in Gindalbie's Notice of Meeting dated 5 May 2010 at a general meeting which is scheduled to be held on 16 June 2010. ASX has granted the waiver of Listing Rule 10.13.3.

If the Equity Raising proceeds, the impact on Gindalbie's capital structure will be as follows:

Issued Shares as at the date of this Notice	707,757,674
Maximum Shares to be issued under the Institutional Placement	120,215,054
Maximum Shares to be issued under the Angang Placement	80,215,000
Maximum Shares to be issued under the SPP	21,505,000
Total Shares	849,477,728

1.6 Interdependent Resolutions

Resolutions 1 and 2 are interdependent. That means both Resolutions must be passed for the approvals sought to be effective. If either of Resolution 1 or 2 are not passed, then both Resolutions will be taken to have failed. Resolutions 1 and 2 are conditional on the Facility Resolution being passed. If the Facility Resolution is not passed, then both Resolutions will be taken to have failed.

If Resolutions 1 and 2 are not approved, the Equity Raising will not proceed and Gindalbie will not be able to make its required equity contributions to Karara. Similarly, the Equity Raising will not proceed if the Facility Resolution contained in Gindalbie's Notice of Meeting dated 5 May 2010 is not approved.

Gindalbie currently has no revenue producing assets, which means that it has limited access to available cash reserves and operating cashflow. Consequently, if Gindalbie was to seek to borrow the required funds it would be likely to find accessing debt challenging given that it has no ability to repay the loan in the short term. The terms of any loan would also be likely to be onerous and unattractive from a corporate risk perspective.

2. ORDINARY RESOLUTION 1 – Issue of Shares to Angang Group Hong Kong (Holdings) Limited or its nominee

2.1 Background to the Resolution

Resolution 1 seeks Shareholder approval of the Angang Placement to Angang HK. Angang HK is a wholly owned subsidiary of AnSteel and currently holds a 36.12% shareholding in the Company.

In relation to the Angang Placement, on 13 May 2010, the Company entered into a subscription agreement with Angang HK, pursuant to which the Company agreed to allot and issue to Angang HK that number of Shares that may be issued to Angang HK in order to maintain its current 36.12% shareholding in the Company following completion of the Equity Raising, at an issue price of \$0.93 per Share (**Angang Subscription Agreement**). The key terms of the Angang Subscription Agreement are summarised in section 2.2 of this Explanatory Statement.

If Resolutions 1 and 2 and the Facility Resolution are passed, and the other conditions precedent to completion of the Angang Placement are satisfied, it will enable Angang HK to maintain, either directly or indirectly, its current 36.12% shareholding in the Company following completion of the Equity Raising by subscribing for up to 80,215,000 Shares.

The independent Directors believe that the Equity Raising, including the Angang Placement, is in the best interests of Shareholders as it ensures Gindalbie is able to meet its required 50% equity commitments for Karara so Karara can successfully fund the development of the Karara Project and meet specific pre-commissioning and other working capital costs. Angang HK is Gindalbie's largest shareholder at 36.12% and, another wholly owned subsidiary of AnSteel, Angang, is also a 50% shareholder in Karara.

The independent Directors believe that AnSteel's support of Gindalbie has been critical to its success and believe that maintaining AnSteel's ownership position results in Gindalbie remaining a strong company.

2.2 Key Terms of Angang Placement

Completion of the Angang Placement is subject to and conditional on:

- (a) approval by the Treasurer under the Foreign Acquisitions and Takeovers Act;
- (b) Angang HK obtaining all legal and regulatory approvals required for the Angang Placement;
- (c) approval for the quotation of the Angang Placement Shares by ASX;
- (d) Shareholder approval of the Angang Placement for the purposes of Listing Rule 10.11 (being the subject of Resolution 1);
- (e) the Company obtaining a waiver of Listing Rule 10.13.3 to enable completion of the Angang Placement to occur more than 1 month after Shareholder approval of the Angang Placement;
- (f) Shareholder approval of the Institutional Placement for the purposes of Listing Rule 7.1 (being the subject of Resolution 2) and completion of the Institutional Placement occurring; and
- (g) Shareholders approving the Facility Resolution contained in Gindalbie's Notice of Meeting dated 5 May 2010 at a general meeting which is scheduled to be held on 16 June 2010.

ASX has granted the waiver of Listing Rule 10.13.3 referred to in paragraph (e) above. If the remaining conditions are not satisfied or waived by the date that is 3 business days before the date that is 6 months from the date of this Meeting, the Angang Placement will not proceed. If the Angang Placement does not proceed, Gindalbie will consider all other financing alternatives available, including a potential further equity raising, at that time.

Under the Angang Subscription Agreement, the Company and Angang HK have each provided representations, warranties and indemnities that are customary for agreements of this nature. The Directors (other than the directors of the Company who are nominees of AnSteel or its subsidiaries) have agreed to unanimously recommend the Angang Placement to Shareholders and not to withdraw that unanimous recommendation prior to completion, except to the extent that the recommendation would constitute a breach of their fiduciary or statutory duties.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES OR TO U.S. PERSONS

The Directors' recommendation in respect of Resolution 1 is set out in section 2.6 of this Explanatory Statement.

The number of Shares to be issued to Angang HK of up to 80,215,000 was determined on the basis that Angang HK would participate in the Equity Raising only to the extent required to maintain its current voting power in the Company of 36.12%.

Angang HK will not be paid any fees or commissions in relation to its participation in the Angang Placement. The Angang Placement issue price of \$0.93 is equal to the Institutional Placement issue price, which was determined by the Joint Lead Managers in consultation with the Company following completion of an institutional bookbuild. The placement price represents a discount of approximately 25% to the volume weighted average price for the Company's Shares on ASX over the 30 days preceding the trading halt on 13 May 2010. Over the three months ending 12 May 2010, the Company's Shares have traded on ASX in a range of \$0.94 to \$1.42.

On the basis of the above, the independent Directors consider that the issue of up to 80,215,000 Shares at \$0.93 per Share to Angang HK is reasonable as the terms are consistent with the Institutional Placement and Angang HK's voting power in the Company will not increase as a result of the issue.

2.3 Listing Rule 10.11

Listing Rule 10.11 provides that a listed company may not, without the approval of ordinary Shareholders, issue or agree to issue equity securities to a related party, or a person whose relationship with the listed company or a related party of the listed company is, in ASX's opinion, such that approval should be obtained.

Angang HK is not considered by Gindalbie to be a "related party" of the Company. However, ASX has determined that Angang HK is a person whose relationship with the Company is, in ASX's opinion, such that Shareholder approval of the Angang Placement should be obtained.

2.4 Listing Rule 7.1

Approval pursuant to Listing Rule 7.1 is not required for an issue of Shares to Angang HK pursuant to the Angang Placement as approval is being sought under Listing Rule 10.11. Accordingly, if Resolutions 1 and 2 are passed, the Shares issued to Angang HK will not be included in the calculation of the Company's annual 15% placement capacity pursuant to Listing Rule 7.1.

2.5 Listing Rule Requirements

Listing Rule 10.13 sets out a number of matters which must be included in a notice of meeting requesting shareholder approval under Listing Rule 10.11. In accordance with Listing Rule 10.13, the following information is provided to Shareholders to assist them to assess whether to approve Resolution 1:

- (a) The Company intends to issue up to 80,215,000 Shares to Angang HK or its nominee. The precise number of Shares issued will be such number of Shares that need to be issued to Angang HK after the issue of Shares under the Institutional Placement and the Share Purchase Plan to result in Angang HK having its voting power (calculated in accordance with section 610 of the Corporation Act) in the Company equal to the voting power it has in the Company as at the date of the Angang Subscription Agreement, being 36.12%.
- (b) If Resolutions 1 and 2 and the Facility Resolution are passed, pursuant to the terms of the waiver of Listing Rule 10.13.3 granted by ASX to the Company, the issue of the Shares to Angang HK or its nominee will occur no later than 5 business days after the date of receipt by the Company of written confirmation by Angang HK that all relevant Chinese regulatory approvals have been obtained in accordance with the terms of the Angang Subscription Agreement and, in any event, no later than 6 months after the date of the Meeting.
- (c) Angang HK has a shareholding of 36.12% in Gindalbie. Angang is also Gindalbie's partner in the development of the Karara Project. As set out above, Angang HK is not considered by Gindalbie to be a "related party" of the Company, however, ASX has determined that, in its opinion, Angang HK is a person whose relationship with the Company is such that Shareholder approval of the Angang Placement should be obtained.
- (d) The Shares to be issued to Angang HK or its nominee will be issued at a price of \$0.93 per Share. The Shares will rank pari passu in all respects from the date of issue with the existing Shares of the

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES OR TO U.S. PERSONS

Company. The Company will apply for official quotation on ASX of all Shares issued pursuant to the Angang Placement.

- (e) The number of Shares to be issued to Angang HK or its nominee will be that number of Shares necessary to ensure that it maintains its current voting power in the Company of 36.12%. If the maximum of 80,215,000 Shares are issued pursuant to the Angang Placement, approximately \$74.6 million will be raised. It is intended that the funds raised will be used by the Company for equity contributions to be made by the Company to Karara to develop the Karara Iron Ore Project described in section 1.5 of this Explanatory Statement. If fewer than 80,215,000 Shares are issued pursuant to the Angang Placement, then the funds raised will be reduced accordingly.
- (f) A voting exclusion statement in respect of Resolution 1 is set out in both the Notice of General Meeting and section 2.7 of this Explanatory Statement.

2.6 Directors' Recommendation

The Directors (other than Mr Wang Heng, Mr Chen Ping and Mr Yu Wanyuan, who have declined to make a recommendation due to their position as nominees of Angang HK on the Board) recommend that Shareholders vote in favour of Resolution 1 for the reasons set out in sections 1.5, 1.6, 2.1 and 2.2 of this Explanatory Statement.

2.7 Voting Exclusion Statement

In accordance with Listing Rules 10.13 and 14.11, the Company will disregard any votes cast on Resolution 1 by Angang HK or its nominee and any person who may obtain a benefit, except a benefit solely in the capacity of a Shareholder, if Resolution 1 is passed and their Associates. However, the Company need not disregard a vote if it is cast by a person as a proxy for a person who is entitled to vote, in accordance with the directions on the proxy form, or is cast by the person chairing the meeting as a proxy for a person who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

3. ORDINARY RESOLUTION 2 – Issue of Shares pursuant to the Institutional Placement

3.1 Background to the Resolution

Resolution 2 seeks Shareholder approval of the Institutional Placement. The Company is undertaking the Institutional Placement as part of the overall Equity Raising, to provide the Company with additional funds for equity contributions to be made by the Company to Karara to develop the Karara Iron Ore Project, fees, legal expenses and other costs associated with the Equity Raising and to strengthen the Company's cash resources to underpin future growth opportunities for Karara. Refer to section 1.5 of this Explanatory Statement for further details regarding the Equity Raising.

Gindalbie has not completed an equity raising to institutional investors for many years. The level of institutional ownership of Gindalbie is currently less than 15%, which is well below the industry benchmark for an ASX 200 company. Over the last 6 months, Gindalbie has significantly progressed and de-risked the Karara Project thereby making Gindalbie a more attractive investment for long term focussed institutions.

The Board believes that the Equity Raising, including the Institutional Placement, is in the best interests of Shareholders for the reasons set out in section 1.5 and 1.6 of this Explanatory Statement.

3.2 Key terms of the Institutional Placement

The Institutional Placement issue price of \$0.93 was determined by the Joint Lead Managers in consultation with the Company following completion of an institutional bookbuild. The placement price represents a discount of approximately 25% to the volume weighted average price for the Company's Shares on ASX over the 30 days preceding the trading halt on 13 May 2010. Over the three months ending 12 May 2010, the Company's Shares have traded on ASX in a range of \$0.94 to \$1.42.

The Institutional Placement is subject to:

- (a) Shareholder approval of Resolutions 1 and 2;
- (b) Shareholder approval of the Facility Resolution contained in Gindalbie's Notice of Meeting dated 5 May 2010 at a general meeting which is scheduled to be held on 16 June 2010; and

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES OR TO U.S. PERSONS

- (c) the Company obtaining a waiver of Listing Rule 10.13.3 to enable completion of the Angang Placement to occur more than 1 month after Shareholder approval of the Angang Placement.

ASX has granted the waiver of Listing Rule 10.13.3 referred to in paragraph (c) above.

The Company and the Joint Lead Managers have entered into a placement agreement (**Placement Agreement**) under which the Joint Lead Managers were appointed to jointly manage the Institutional Placement.

The obligations of the Joint Lead Managers under the Placement Agreement are subject to the satisfaction of certain conditions precedent documented in the Placement Agreement including that their obligations to assist with settlement of the Institutional Placement are also subject to the conditions set out in paragraphs (a) to (c) above.

Furthermore, in accordance with the Placement Agreement, as is customary with these types of arrangements:

- (a) Gindalbie has (subject to certain limitations) agreed to indemnify the Joint Lead Managers and their related entities, directors, officers, partners, employees, agents and advisers against losses in connection with the Institutional Placement.
- (b) Gindalbie and the Joint Lead Managers have given certain representations, warranties and undertakings in connection with (among other things) the conduct of the Institutional Placement.
- (c) The Joint Lead Managers may terminate the Placement Agreement and be released from their obligations on the happening of any of a range of events, including if:
